ITCOM

ITCOM has grown out of an idea for collaboration. The company was started in 2020 where the owners are self-employed and have been colleagues over the years in various assignments. We have a strength in that everyone has different specialist areas. ITCOM has a very wide range of different knowledge and industry knowledge. Our primary focus area in the future will be cloud solutions. In addition, of course we still have a large product portfolio to pick from. Our motto is **with us IT works**

PRIVATE

Me and my wife with our dog Leo live in Gothenburg city, we like traveling the most and I enjoy online gaming and cars personally.
